

X-2830U

5-Stage HEPA Air Scrubber with Dual UV Lights

Designed with the unique needs of businesses, clinics, hospitals, hotels, and similar facilities in mind, the XPOWER X 2830U commercial air purifier gives you maximum options with 5 speeds and 500 CFM airflow capacity. This high performance air purification unit includes Dual UV C lights built in to help eliminate germs, viruses, and pathogens. Also featuring a new TiO₂ (Titanium Dioxide) filter which helps break down organic compounds and other VOCs. This unit truly has all the bells and whistles for ultimate air quality control management. Finished in a high-end matte black finish, it can blend in with any professional or business setting for cleaner and healthier indoor air quality. Advanced digital controls for speed settings, a timer function, and a PM2.5 air quality meter make it the most user-friendly, easy-to-set-up air scrubber on the market, and the timer makes off-hours operation a breeze. Suitable for a variety of applications in spaces where optimal indoor air quality is crucial, powerful enough for a medium to large-sized room, and quiet enough for a business environment, it's optimized to clean the air quickly so you don't need to run it all day, solving the noise issue, saving electricity, and avoiding the hassle of dealing with multiple units. Unlike many other air purifiers, it even has a handle for easy transport and a lightweight design.
