

FA Series

Warehouse/Dock Cooling Fan Kit

XPOWER FA line of warehouse/dock cooling solution brings powerful airflow and circulation with tons of features and models to choose from. Wall mounted and portable trolley models available with two different fan sizes and LED spotlight options for increased visibility and safety. We know warehouse docks can get hot and visibility during loading is not always ideal, but with the FA line from XPOWER, we have the features and airflow that can really make a difference in your workplace.

- Complete warehouse/dock/container/trailer cooling and ventilation solution
- Can be used in other commercial applications like garages, auto shops, machine shops, Greenhouse, CrossFit gyms, Cannabis growing facilities
